A/NIO/LA contacted Ambassador Middendorf's office on 23 July. The Ambassador's aide, Michael Davila, indicated there is still interest in being briefed by CIA on the whole of Latin America. According to Davila, the Ambassador wants a wide-ranging, "broad-brush" treatment hitting on such themes as impediments or incentives to economic development, regional security issues, and general political trends. Davila said Ambassador Middendorf wants a single session, probably lasting two hours.

The Ambassador is expected back from extensive overseas travel on 3 August. Davila will check with him at that time to discuss the briefing, and promised to call back so that we can set up a date and time. If we do not hear back within that time, A/NIO/LA will again get in touch with the Ambassador's office.
